I am inclined to agree with the Financial Branch. If the new Industrial classes are at all necessary, they might be started in connection with the new building when it is completed. For the present I think a weaving class is unnecessary because other sources of instruction in weaving are already available. I don't believe in wood carving because there is little or no demand for it. Metal work has a great future before it, but if started at all it must be started on a sufficiently liberal basis and it might be over till the new building is available.

Resubmitted to Secy

I shall not press the matter, though it seems

NOTE—Contn sheet

Submitted to His Highness

The Inspector General of Education submits certain proposals for additional expenditure amounting to Rs 9 319/- for the Mysore Industrial School during the year 1912-13. These proposals involve an additional provision made under stock materials, scholarships wages of temporary establishment and increase of pay to peons amounting in all to Rs 2 095/- and the opening of new branches of study for imparting instruction in weaving metal work and wood carving and improving the present rattan class at a cost of Rs 7,224

2 The Financial Department suggests that the proposals regarding weaving metal work wood carving and improvement of the rattan class may be deferred for the present and that the increase under ^{other} ~~the~~ heads amounting to Rs 2 095 per annum may be sanctioned

3 The First Councillor is of opinion that the Inspector General's proposals may be sanctioned

4 I am inclined to agree with the Financial Department. If the new Industrial classes are at all necessary, they might be started in connection with the new building when it is completed. For the present I think

a weaving class is unnecessary because other sources of instruction in weaving are already available I do not believe in wood carving because there is little or no demand for it Metal work has a great future before it, but if started at all it must be started on a sufficiently liberal basis, and it might lie over till the new building is available The First Councillor to whom the papers were again referred while not inclined to press the matter asks for reasons given in his note of the 5th April, for a reconsideration of the subject The papers were thereupon circulated to the Second Councillor and he agrees with me in my opinion

5 I submit the papers for orders

Dear Sir,

I am directed to return File No 241 dated 10-5-12 and to say that His Highness would prefer to consult expert opinion before starting new Industries in the Mysore Industrial School. There can be no harm in waiting until the New building is occupied and if we can secure the services of Mr Chatterton his advice may be taken on the question of starting the new Industries referred to. It can do no harm to wait at least for a year before making any new departure. As you say, weaving is already being taught in certain other Institutions. His Highness is strongly in favour of making an attempt to improve wood-carving in the state but even this can wait.

His Highness therefore accepts the proposals of the Financial Department and Sanction an additional allotment of Rs 2095/- per annum.

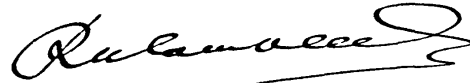

Yours,

of

proposals for additional charges required for the Mysore Industrial School in connection with the Budget Estimates of the Industrial and other Special Schools for the year 1912-13

At a meeting of the Managing Committee held in Mysore on the 18th January 1912 for discussion of the budget estimates of the School for 1912-13, the following additional items of expenditure were proposed -

1 Explanatory Remarks

Before proceeding to the items of increased expenditure, it is necessary to note for a clear understanding of facts and figures that the Pottery section of the Industrial School was ordered to be worked as a separate department of the school and a sum of Rs 10000/- was placed at the disposal of the committee as directed in Government Order No 9970-1/Fdn 330-10-2 of 1st July 1911 & No 2170-1/Fdn 330-10-11 dated 14th September 1911

* O

* P

This amount of Rs 10000/- is for the following items -

(b) Stock Materials		(c) Scholarships	Rs 1630/-
(4) Clay & Land	Rs 2000/-	(b) Wages of temporary establishment	Rs 2000/-
(5) Fuel	Rs 3000/-	(g) Establishment	

Total	Rs 5000/-		
First Pottery Instructor	Rs 960/-		
Second do do	Rs 360/-		Rs 1320/-

			Total Rs 10000/-

The following special provisions were also sanctioned for the

Pottery section in connection with the current year's budget -

(a) Machinery & Tools

For Racks, frames &c ,	Rs 2000/-
For a Motor Engine	Rs 3300/-
Total	Rs 5300/-

(d) Sheds

For a chimney & sheds	Rs 3300/-
Total	Rs 8300/-

This amount will be omitted in the next year's budget as it was sanctioned for special items of expenditure

For the reasons stated the budget provisions of the other Departments of the school for the current year reduce themselves to the following grants -

(a) Machinery & Tools		Rs 1000 /-
(b) Stock Materials		
(1) Timber	Rs 3500/-	
(2) Iron, brass & copper	Rs 1000/-	
(3) Rattan	Rs 600/-	
(4) Sundries	Rs 1400/-	Rs 6500/-
(c) Scholarships		Rs 7620/-
(d) Sheds &c		nil
(e) Contingencies		Rs 617/-
(f) Wages ~~and~~ temporary establishment		Rs 1000/-
(g) Establishment		Rs 10098/-
(h) General Education Branch		Rs 900/-
(i) Travelling allowances		Rs 150/-
(j) Prizes		Rs 200/-
Total		Rs 23085/-

2

Items of increase

(b) Stock Materials

(Committee's Resolution No II)

As it has been found necessary year after year to sanction additional grants for stock materials, the committee propose slight increase of Rs 800/- which is much less than the actual increase for the last two years

41

According to this proposal the details under stock materials

stand as follows -

	Sanctioned for 1911-12	Proposed for 1912-13	Increase
1 Timber	3500	4000	500
2 Iron, brass & copper	1000	1000	
3 Rattan	600	800	200
4 Sundries	1400	1500	100
	-----	-----	-----
	6500	7300	800

(c) Scholarships -

The provision for scholarships is proposed to be increased from Rs 7620/- to Rs 8400/- or by Rs 780/- The provision is said to be required for the number of boys now studying in the school as well as for 20 more that are expected to join class A

The details are as follows -

	Rate Rs	No	Amount Rs
1 Advanced class	10	13	1560
2 Intermediate	8	13	1248
3 Elementary	6	10	720
4 Standard D	5	25	1500
5 Standard C	4	35	1680
6 Standard B	3	30	1080
7 Standard A	2	30	720
Drawing scholarships			
Advanced	7	1	84
Advanced II class and Intermediate	5	3	180
Elementary II class reading for Intermedi- ate	3	5	180
	-----	-----	-----
		165	8952
Lump sum deduction on account of withdrawals, late admission & absence			552
	-----	-----	-----
Total		165	8400

(e) Contingencies

The provision is recommended to be raised from Rs 617 to Rs 620 merely with a view to round the figure, the increase of Rs 3 being added to the item 7 miscellaneous which now provides for Rs 152

(f) Wages of temporary establishment

The school is getting orders for increased work and to cope

5

with it the provision under this head has to be increased by Rs 500

The ex-students of the school will be employed as far as possible for this work This arrangement will enable them to complete their training by making them work on business lines

(g) Establishment

There are now two persons on Rs $5\frac{1}{2}$ Their pay is proposed to be raised to Rs 6 each This will increase the cost by Rs 12 a year

It is represented that it is difficult to secure the services of menials on Rs $5\frac{1}{2}$ The scale of menials as revised will be (8), 2 (7) 8 (6) instead of (8), 2 (7) 6 (6) & 2 ($5\frac{1}{2}$)

Committee's
Resolutions,
Nos IV & V

3 The committee also propose to open new branches of study for *metalwork and wood* imparting instructions in Weaving *carving*, and to improve the present Rattan Class

1 Weaving

This was one of the industries proposed to be taught in the School as early as 1904 It could not be taken up till now as the tile industry occupied the full attention of the Managers It is high time that attention should be directed to this branch of study

11 Metal Work

This is an important industry & highly useful to the public

The industry *as* locally practised admits of much improvement

111 Wood Carving

Sandal-wood carving is an important industry of the province, and the number of men engaged in it is gradually decreasing Good work has become rare, and even the few that are moderately good *have* often to work with bad workmen, that the finished product is not at all

6

appreciated It is therefore thought necessary to impart regular instruction in the art in the school Of course the instruction will not be confined to sandal wood alone but the carving in other kinds of wood will also be included in the curriculum

IV Improvement of the Rattan Class -

The rattan ^{class} is said to ^a contain little over 40 pupils, and ^{one} instructor does not find it possible to efficiently manage the class without assistance The employment of an assistant instructor on Rs 15/- is therefore found quite necessary

For the additional branches and improvements suggested by the committee the following additional Grants are said to be necessary -

Budget head	Machinery & tools	annual provision	annual provision
	For (1) Weaving class	Rs 700	
	(2) Metal work	700	
	(3) Carving do	100	Rs 1500
	<u>(b) Stock materials</u>		
	For (1) Metal work	500	
	(2) Yarns and sundries	1000	1500
	<u>(c) Scholarships</u>		
	30 for standard A @ Rs 2	720	
	5 for standard B @ Rs 3	180	900
	<u>(d) Sheds for weaving</u>		1500
	<u>(g) Establishment</u>		
	(1) Carving Instructor on Rs 50/- a month	600	
	(2) Metal work Instructor on Rs 40/- a month	480	
	(3) Weaving Instructor on Rs 40/- a month	480	
	(4) Assistant Instructor for the Rattan class on Rs 15/- a month	180	
	(5) One additional peon on Rs 7/-	84	1824
	Total		Rs 7224

4 Summary of additional charges -

The total additional charges proposed in paras 2 and 3 amount

to Rs 9319/- as detailed below

Budget heads	Sanctioned for 1911-12	Proposed for 1912-13	Increase
(a) Machinery and tools	1000	2500	1500 -
(b) Stock ma- terials	6500	8800	2300
(c) Scholarships	7620	9700	1680
(d) Sheds &c ,	77--	1500	1500
(e) Contingencies	617	620	3
(f) Wages and tem- porary esta- blishment	1000	1500	500
(g) Establishment	10098	11934	1836
Total	26635	36154	9519

As stated in para 1, the special charges amounting to Rs 3300/- provided in the current year's budget will be omitted from the budget of the next year. Consequently the net additional charge over and above the provision sanctioned in the current year's budget will be Rs 9319/- minus Rs 3300/- or Rs 6019/-. A sum of Rs 2000/- is expected to be realised as receipts from the new branches of industry proposed.

5 Concluding Remarks

I agree with the committee in thinking that the extra charges proposed are all necessary in the interests of Industrial & Technical education in the state. The new branches of industry proposed to be opened in connection with the school serve a very useful purpose not only ^{by} providing for the students an independent means of livelihood, but also by spreading among the public scientific methods of working employed in the school.

S. Krishna Murthy

Assistant to the Inspector General

For Inspector General.
